

# St. Joseph Pipe Organ

In our new Pipe organ, there almost 1000 pipes, and approximately 14 different kinds of pipes. Some 8 feet tall, some the size of your pinky, some wide, some narrow, some cone-shaped, some metal, some struck with a hammer like a bell, some wooden, some with reeds. These can create seemingly endless combinations of musical character and colors! The creative placement of the pipes is what makes the St. Joseph pipe organ possible and unique, maximizing floor space for the choirs, augmenting the natural acoustics of the church building, and managing to fit all the largest pipes under a low ceiling! We are proud that as a parish we have supported the creation of such a grand work of art with which to glorify God.

We left room for further expansion in the design of our organ. There are still several options for new ranks and memorial gifts listed on the back of this flyer. All gifts at the *Angel* level will now go toward our organ maintenance/tuning fund.

## Questions?

Please contact Luke Massery at 440-238-5555 ext 112, or [lmassery@sjohio.org](mailto:lmassery@sjohio.org), or visit [www.sjohio.org/pipeorgan](http://www.sjohio.org/pipeorgan) and [www.leekpipeorgans.com](http://www.leekpipeorgans.com).
